Summary of Change: Add non NAS Ops Funded planning artifacts to policy and FAST website

Reason for Change: Provide guidance and templates for acquisition personnel to create required documentation for non NAS Ops Funded process and OGB review. Most non-NAS Operations-funded investments do not follow the AMS Life Cycle Management policy and guidance, that results in a lack of oversight for investments, that causes duplication, overlap, and misalignment of investments.

Development, Review, and Concurrence: ASAG and AEB.

Target Audience: Acquisition personnel guiding a program through non NAS Ops funded process as well as Acquisition Readiness Teams

Briefing Planned: Yes.

ASAG Responsibilities: Review and comment. ASAG & AEB approved.

Section / Text Location: Toolkit
